Running, In Place, With ClubRunner

Club Secretary **Karen Schaller** displayed her facile knowledge and experience of the ClubRunner program at today's meeting. She described features that make information dissemination, minutes and notes storage, and communications easy.

Using the website's interface, Karen demonstrated how easy it is to check attendance, upcoming speakers, create folders for committees and the notes that emerge from meetings. You can easily send email messages to your committee using the group members' addresses.

Bangor Noon Rotarian Scott Boucher told how his club stores notes from committee meetings, making them available for next year's volunteers. The Holiday Auction notes can be stored on Roadrunner, serving as a valuable review for the following year's staff.

Each of us can change our profile- add recent awards and glowing tributes, for example. **President Doug Townsend** can add his new Masters in Business Administration degree to his profile, he announced this morning. Regular visitor Mike Townsend completed the father/son matriculation duo by graduating next week. Karen will ask each of us to review and update our profiles.

Kristy Kimball kindly posts each week's Roundtable newsletter. Karen said that the list of past speakers is available on the site, but not their topics. Kristy has posted a large gallery of photos taken at meetings and other Rotary activities.

The address for this wealth of online features is www.bangorbreakfastrotary.org. Karen can guide you through the sign-in procedure and even how to change your username and password.

In Other News: Major National Sponsor for “Ride for Charities”

Kristy announced that the national chain Marshall’s will be a sponsor for the “Ride for Charities.” The company will encourage other sponsors. DJ Rick Johnson will perform. The event is June 30, 6 am to 1 pm. Kristy will appreciate your volunteering.

Jen Khavari and **Jeff Plourde** will co-chair the annual Holiday Auction. **Paul Miragliuolo** said we had only “one singer,” so we got the roomful of singers (!) to serenade **Lucie Estabrook** for her January (!) birthday. **Sandy Blitz** did not escape the birthday fine, either. Lucie announced that the Olympia Snowe Institute seeks advisors for the fall semester. Paul returned from Florida where the average temperature was 88 degrees with low humidity.

Next week: Sean Faircloth.
